

Senior Portrait Pricing

Thank you for inquiring about my services! I understand that your senior photography session is the crowning moment of 12 years of school. It could also be an accumulation of 12 years of bad school pictures. Let's break that bad habit and create something to be remembered. Work with a photographer that cares as much as you do about capturing the perfect portrait of who you are. It's my goal.

It all starts with the portrait creation process to make sure that it is done right- we need to take our time. That is why I take on a limited number of clients - you aren't just a 'number' here.

Create your family cycle with a photographer that wants to be a part of your life. When I get your senior class image done right - you just might be back for other images down the road. For something this important, you need to hire someone who is cutting edge and a professional. Start your professional photography here with us.

Our portrait sessions are done at a location of your choice which can be (park, home, or mountain retreat). We enjoy making portraits where you are most comfortable, can relax and be yourself. Your choice in where to have a portrait created plays a big part in the final results and should be considered carefully.

Our senior portrait sessions include an unlimited number of pictures taken and an unlimited number of clothing changes (limitations are only by the amount of time we have for our shoot and how many changes of clothing you want to go through!). **We also have a portable changing tent so you can feel comfortable changing outdoors.**

Our sessions can last anywhere from 1 - 2 hours, during which time we simply have a great time making some wonderful pictures together. This is a wonderful opportunity to live it up and be the total center of attention. We hope you take advantage and enjoy it!

Please understand that your session involves more than just the time it takes for the actual photography. It requires the scheduling of appointments, travel times (if applicable), setup time, color correction, cropping or digitally enhancing images. When we leave you, our job is still in progress.

We believe that each customer has different needs when it comes to the size and number of prints. We offer one pose packages or one that you design yourself, thus giving you the flexibility to order only what you need.

When designing your custom package, you aren't limited to just one pose, we just figure what you need, add it up and subtract 10% off of your total. **Complimentary year book photo and 8 Photo Folio on all packages \$250 or more.**

The portrait creation fee is for our photography service - all prints are charged additionally according to our ala carte or package prices.

Locations & Travel

We are happy to travel to a location of your choice within the Denver Metro area at no additional charge. For us, traveling and photography go hand in hand. Travel beyond an hour will be billed at \$50/hour in 1/4 hour increments of \$12.50, not including the first hour of travel.

When choosing prints from the camera original images decide on facial expression. The original camera images are not color corrected, cropped or digitally enhanced. The final result is an artistic representation of the person that is created in the digital laboratory. Since the shoot is all digital you can choose to have the final images be black and white, color or sepia toned at no extra charge.
